Cadaver Transport Carrier—Scissor Lift Combo

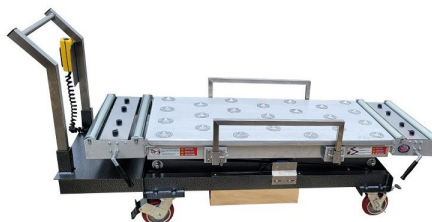

Revolutionize your morgue's efficiency with the **PathSUPPLY Cadaver Transport Cart – Lift Combo**. This innovative, dual-purpose hydraulic system eliminates the need for hazardous and time-consuming transfers between a carrier and a scissor lift, streamlining your workflow and enhancing safety for your staff.

Key Features:

- **2-in-1 Design:** Combines a cadaver transport cart and a scissor lift into a single, seamless unit.
- **Optimal Lift Range:** Effortlessly raises and lowers from **19" to 78"**, accommodating various working heights and storage needs.
- **Robust Capacity:** Safely handles up to **800 lbs**, providing reliable support for diverse requirements.
- **Superior Maneuverability:** Equipped with **6" casters** that feature a **lock-straight tab** for controlled movement and stability.
- **Multi-directional Top:** The **28" wide** top allows for easy positioning and access from any angle.
- **Integrated Safety Rails:** Provides crucial security and prevents accidental falls during transport and lifting.
- **Durable Construction:** Crafted from **marine-grade aluminum and stainless steel**
