Undercounter & Benchtop Refrigerators & Freezers

Made in the U.S.A, So-Low refrigerators and freezers are available in undercounter and benchtop styles. These units reduce temperature fluctuations by cooling samples quickly and using hi/low temperature alarms. These refrigerators and freezers have forced air ventilation through the front grille. Many models have auto defrost. Undercounter styles can be built into casework.

Available options and accessories: remote alarm relay, lockable storage inserts, stainless steel cabinet exterior, and glass

Item#	Style	Size	Exterior w x d x h	Temperature Range	Doors	# Shelves	Amps
